MARY TRACY

Orlando, Fl

graciouslymarygraphics@gmail.com · https://graciouslymary.github.io/portfolio/

Seeking an internship with an Orlando design agency that works with both graphic and digital design.

SKILLS

- Created advertising and promotional designs; identity, collateral, and corporate materials; and motion graphics
- Developed for 3D design: point of purchase, display, and package design; editorial design: books and magazines; and information design: directional, instructional, and quantitative
- Understand file formats, color models, image optimization, composition, layout, color theory, image capture, and output using industry-standard software
- Created complex vector-based graphics by using the Bezier concepts and special effects such as gradient fills, isometric boxes, ellipses, etc.

- Created digital video with use of balance and audio tools, lighting, composition, exposure, and prepared various formats for presentation and distribution
- Created a script and storyboarding to animated productions and 3D animations to be included in digital media production
- Understand web design elements and design methodology from concept to production
- Designed, programmed, and tested video games to ensure they meet system requirements
- Developed logic using relational and logical operators and decision structures
